About Kingsmead Marquees Ltd.

John and Horace Breward founded the family business in 1962. Growing year on year and now a 4th generation family firm, Kingsmead Marquees has become a key supplier in the events market.

From our South Leicestershire base in Frolesworth serving the Midlands and our new depot in Cranfield, Bedfordshire covering London and the Home Counties, we are delighted to offer our services to clients old and new.

The company has always manufactured its own marquees and structures in-house and this ability has enabled our products to perfectly meet the requirements of our hire customers. We

also manufacture to customers' specific requirements and many bespoke structures have found permanent homes around the country.

The extensive stock of accessories we can offer include furniture, linings, flooring, lighting and power distribution, heating, staging, dance floors, awnings, doors and windows, in fact, most popular and some quite unique items!

Whatever your requirements, you will find a first-class service awaits your enquiry. Challenge us to provide you with an imaginative and competitive quotation for your next event.
