

Refuelling benefits for members

Members can enjoy savings of up to 5p per litre on diesel & petrol, and up to 10p per litre at motorway pumps, with a free no-obligation fuel card from leading independent fuel card agent The Fuelcard People.

The Fuelcard People [offer a range of cards](#) which include commercial rate fuel cards valid at [7000+ pumps](#) nationwide, including BP, Shell, Esso, Texaco, Tesco, Morrisons, The Co-operative, Gulf, Pace, Emo, Murco and Moto forecourts, as well as the Diesel Direct (Keyfuels) and UK Fuels networks.

Savings

With a fuel card from The Fuelcard People, you enjoy [fixed weekly pricing](#), which can be up to 5p per litre less than pump prices, and up to 10p per litre savings at motorway pumps. The gap between refuelling and direct debit payment means up to a fortnight's interest-free credit, and your fuel purchase paperwork is replaced by a single weekly invoice, saving administration time.

Service

The Fuelcard People will help you to choose the [best fuel card for your particular needs](#), from the UK's widest range, rather than pushing you towards a pre-decided product. Then, if you ever need to talk to them, you can call your dedicated account manager directly, rather than an anonymous call centre operator. Outside office hours, you can [access your account details online 24/7](#).

Security

All fuel cards provided by The Fuelcard People are protected by PIN security. If a card is lost or stolen, it is completely useless to anyone else, as it is tied to a specific driver or vehicle. It can only be used for refuelling, removing the possibility of unauthorised purchases, which can happen with credit cards.

Additional Services

Alongside the savings, service and security a fuel card can bring, The Fuelcard People offer a range of additional services to enhance your fleet management, including eServices, MileageCount and CO₂Count.

Online account management system, [eServices](#), allows you to take control of your account 24/7. Here, you can view detailed transaction information, order and cancel cards and view your card details.

For those wanting to monitor mileage, [MileageCount](#) calculates accurate, HMRC-compliant MPG reports for your fleet, including the split between business and private mileage costs, and also helps you meet your Duty of Care obligations.

Members can also benefit from [CO₂ Count](#), which allows you to monitor and reduce your fleet's CO₂ and other greenhouse gas emissions whilst supporting CO₂Count's environmental partner, Cool Earth.

Find out more about the range of benefits available:

- **Reduced card charges for all members**
- **No advance payments, non-usage fees, contracts or obligations – only pay for the fuel you use.**
