About Grandstand Hire Services

Whatever the event, a retractable grandstand creates a focal point for seating your members, sponsors or guests in comfort and protected from the weather.

Each grandstand seats one hundred and fifty people in individual seats all undercover, and can be added to in multiples of 150 as required. Each block of 150 seats measures 44ft x 16ft when set up.

Because they are retractable they can be set up in less than an hour and removed just as quickly once the event has finished - ideal for roadside events such as carnivals and parades.
