

VW Finance's new £25 million HQ in Milton Keynes opened with a bang last month. Pixie Lott topped the bill, supported by spectacular display of fireworks, lasers, lights and flames. The event was produced by DV8 Global Events and we demonstrated our expertise in rooftop fireworks, using the latest zero-fallout products to create a stunning yet safe close proximity viewing experience. 'We were blown away with the show' said DV8's Alex Beckett. 'Absolutely brilliant!' Have a look at our other areas of expertise (right). All our displays are individually designed and choreographed to the highest standards.

Call or email us to see how we can add some stardust to your big event.
